

ANNIVERSARY AT THE UNIVERSITY OF PETROȘANI

On 6th February 2019, the University of Petroșani rendered homage to **prof. eng. Ph.D Nicolae Dima** occasioned by his 80th birth anniversary.

At the anniversary there were participants from the academic environment and national cadastre institutions.

Prof.eng. Ph.D Sorin Radu, the rector of the University of Petroșani held the opening speech, referring to the personality of Nicolae Dima, highlighting the significance of the moment.

Prof.eng. Ph.D Ioel Vereș, director of the Mining Engineering, Topography and Constructions Department, coordinated the anniversary program, established by the members of the Topography team.

The participants presented their personal views and of the institutions they represented on the personality of Nicolae Dima.

The most important headlines of Nicolae Dima in the 58 years of activity at the University of Petroșani were presented by Ioel Vereș:

- The didactic development, being university teacher since 1962, took all the steps up to the professor Ph.D rank in 1980;
- Numerous teaching materials;
- Scientific and honorary titles given;
- Managing positions during 33 years, from vice-dean to university president;
- Valuable scientific research in various important domains.

Also, the personality of prof. Nicolae Dima was praised by:

- University of București;
- Construction Technical University București;
- Agricultural Sciences and Veterinary Medicine Cluj-Napoca;
- Technical University of Cluj-Napoca;
- Agricultural Sciences and Veterinary Medicine "Banatului" Timișoara;
- University of Oradea;
- University of Craiova;
- University "1 December 1918" Alba-Iulia
- University of Petroșani
- The Geodesists Union Romania

The content of the messages represented appreciations referring to:

- His activity on the general development of geodesy engineering with remarkable contributions on the development of mining topography, national and world wide;
- The significant contribution for geodesy in Romania, especially for mining topography;
- The excellence in the geodesic education in Romania;
- The contribution to the Education and Scientific Research in the domain of Geodesy Engineering;
- The entire teaching and scientific activity and to the constant promotion of the romanian university education values.

The anniversary environment was supplemented by the desire that prof.eng. Ph.D Nicolae Dima to have new accomplishments and to enjoy his age, to have further work capacity and many years ahead !
